

Juggling Ball Distribution

- Juggling balls should arrive 2-5 days prior to your scheduled event.
- They will typically arrive via FedEx carrier.
- You should receive an email notifying you that the juggling balls were shipped and letting you know how many boxes you will receive.
- On the day of the event, the juggling ball boxes should be put into the room where the event will be held but off to the side.
- The juggling ball boxes are covered in white packaging material. That wrapping should be taken off. The box that it covers is a little flimsy so you can choose to either sit that box out or dump all the juggling ball sets on 2 containers on each side of the room.
- During the appropriate time during his keynote, Curtis will mention that your company has provided juggling balls for everyone. He will instruct everyone how to get them out. This is usually done very quickly and efficiently.
- If at any time you have questions, feel free to give the office a call at 513-229-3626. We are happy to assist.
